

“New: Coos County Flood and Natural Hazards Web Tool”

- The [Coos County Planning Department](#) is the best source of information regarding Flood Insurance Rate Maps. The Rate Maps can be found at: <https://msc.fema.gov/portal> .
- Other maps with information about additional Oregon Coastal hazards such as Tsunamis and 100-year floods can be found at: <http://www.coastalatlantlas.net/estuarymaps/>
- The [GIS mapping tool](#) found on the [Assessor’s home page](#) has the 100-year and 500-year flood information as separate selectable layers. Select the Content link titled “Framework: Hazards-WM”.
- Just below that Content link are overlay maps showing the projected Tsunami inundation areas expected for
  - best-case (distant Alaska or Far East earthquake) titled “SM Tsunami Inundation Scenario”, and
  - worst-case (Cascadia earthquake) titled “XXL Tsunami Inundation Scenario”.
