

**6- 41R REASON FOR DEMANDING RECALL OF TOM DYCHE, CAMMANN ROAD DISTRICT COMMISSIONER, AS PROVIDED ON RECALL PETITION:**

Tom Dyche has endorsed the formation of the current Cammann Road District, which under its current structure unfairly creates revenue from property values in the district. This structure charges many residents who use a small portion of the public road more than some who use nearly the entire road. Some residents of the district have also been excluded from payment to the district because they are located in the city limits or the Coquille Tribal lands, although they have access through the district. Endorsement of these unfair practices and others have resulted in a petition to recall.

**JUSTIFICATION STATEMENT AS PROVIDED BY TOM DYCHE:**

When the road district was formed there were three tax base options. We followed the guidelines and settled for 2.199 per thousand dollars taxable value. This was the cheapest option we had. We now have power to apply for government grants and get cooperation from government agencies.

We are powerless without a road district. We finally are getting tax money to make badly needed improvements. Sadly this recall has to be paid for by the road district. This money for needed repairs will be taken from you. The folks at the beginning of the road have the worst section and will get major work done from money collected from everyone else on Cammann road Anchorage and Wingert streets, Plummers court and Hargens lane. We are in this together. This recall will hurt the road district. It is meant to. I promise to continue to volunteer my time and labor to you. Please vote against the recall.

Kind regards,  
Tom Dyche

**QUESTION: DO YOU VOTE TO RECALL TOM DYCHE FROM THE OFFICE OF CAMMANN ROAD DISTRICT COMMISSIONER?**
