RE: Coos County Files SP-12-02; AP-13-01/02  
Request to Respond to New Evidence

Dear Mr. Stamp:

According to ORS 197.763(6)(c), I am filing this written request for an opportunity to respond to new evidence submitted by the applicant. On September 20, 2013, at the close of the latest open record period in this proceeding, Mr. Mark Whitlow, on behalf of applicant Jordan Cove Energy Project LP, submitted as Exhibit A, a letter by Robert L. Braddock. Mr. Braddock's letter contains new evidence, not previously placed in the Record of this proceeding, that the proposed power plant will use "steam turbine generator units" and a "closed-loop water system" for cooling. The letter goes on to describe how this cooling system would function, which is also new evidence.

I ask that the record be reopened for an additional seven days from the date of this letter, until October 3, 2013, to allow responses to the new evidence described above. I did not file this letter until today, because I first saw the applicant's September 20 submittal yesterday, when I received it from Jody McCaffree. Although I do not have access to the Internet, I have been told it was not posted on the County's website until yesterday, also. Please make this letter a part of the hearing record.

Thank you for your consideration of my request.

Respectfully submitted,

John Clarke
