Re: HBCU-13-06 (Blue Ridge Route)

To whom it may concern:

PCGP’s application for the Coos County Conditional use approval is consistent with PCGP’s application and County Approval for HPCU-10-01 and HBCU-13-04.

HP-CU-1306 crosses and effects the same mix of zoning districts (EU, Forest, 20 RS), the topography is similar, the issues are similar and applicable criteria are the same.

As stated in Coos County’s Notice of Public Hearing, the request is to “make sure both the original and amended portions of the route have the appropriate land use approvals and Federal Energy Regulatory Commission (FERC) will render a decision on which route is appropriate”.

This request to amend the route, HBCU-1306, is no different than HBCU-10-01 and HBCU-13-04. As such the County must find that the same criteria applies to all and thus HB-CU-1306 should be approved.

Thanks,

Mark Sheldon
