

# Coos County Noxious Weed List

Adopted April 24, 2018

1. “A” designated weed – a weed of known economic importance which occurs in the county in small enough infestations to make eradication/containment possible; or is not known to occur, but its presence in neighboring counties make future occurrence in Coos County seem imminent.
2. “B” designated weed – a weed of economic importance which is abundant in parts of the county, but which may have limited distribution in some areas.
3. “T” designated weed – Species from either the A or B lists that is Targeted (T) to be the focus for prevention and control within the county. Actions against these species will be a priority.
