

## **Coos Bay Estuary Management Plan Joint Citizen Advisory Committee Form**

Thank you for your willingness to serve the community. Please read and fill out all the information below. If you would like to serve for one of the city's appointed positions, please remit this form to the appropriate City (see information on the last page for instructions).

As set forth in Section 2, Policies #36 and #39 of the Coos Bay Estuary Management Plan a Citizen Involvement Program consistent with Oregon Statewide Planning Goal 1 “[t]he governing body charged with preparing and adopting a comprehensive plan shall adopt and publicize a program for citizen involvement that clearly defines the procedures by which the general public will be involved in the on-going land-use planning process” is required.

As part of the plan and policies the following roles for the Technical Advisory Committee:

1. Marine Economist/Blue Economy Expert: Specializing in the economic aspects of maritime activities, including blue water economy, shipping, and port usage.
2. Port and Shipping Specialist: To provide expertise on the operational and logistical aspects of ports and shipping within the estuary.
3. Recreational and Tourism Planner: To assess and advise on recreational uses, tourism potential, and the economic impact of such activities.
4. Cultural Heritage Expert/Anthropologist: To evaluate the cultural significance of the estuary and provide insights into preserving cultural heritage during development. An appointment member of each tribe named in Policy #18 will satisfy this role unless otherwise agreed upon by the tribes and the governing body.
5. Historian: To contribute historical perspectives on the estuary and guide strategies for preserving historical landmarks.
6. Environmental Conservationist: To ensure that conservation efforts are integrated into the plan, protecting the estuarine ecosystem and biodiversity.
7. Coastal Engineer: To address engineering aspects related to deep water draft activities, ensuring safe and sustainable development.
8. Marine Biologist: To study and advise on the impact of deep-water draft activities on estuarine wildlife.
9. Sociologist: To study and provide insights into the social dynamics and community impacts of the proposed activities.
10. Recreational Fisheries Expert: To assess and manage the impact on recreational fishing activities and associated economies.
11. Watershed: To provide expertise from a watershed perspective.
12. Water Quality specialist: To study and provide an assessment of water quality.
