Summary 175 words which concisely and impartially summarizes the measure and its major effect.

State law allows for the manufacture, distribution and possession of psilocybin and psilocin. These substances are known to cause euphoria, visual and mental hallucinations, changes in perception, a distorted sense of time, and perceived spiritual experiences. Effects can also include adverse reactions such as nausea and panic attacks. State law provides that a city council may adopt an ordinance to be referred to the voters of that city which prohibits the establishment of any businesses providing services related to the manufacture or distribution of these substances. Ordinance No. 1289 of the City of Myrtle Point establishes this ban.

A "yes" vote on this measure will continue the ban established by the Myrtle Point City Council on the establishment of psilocybin product manufacturers and psilocybin service centers within the City Limits of Myrtle Point. A "no" vote will overturn the ban.

There is no anticipated financial impact to the city if the measure is approved.
