This notice shall be posted from June 11, 2020 to June 23, 2020

The purpose of this notice is to inform you about the proposal and decision, where you may receive more information, and the requirements if you wish to appeal the decision by the Director to the Coos County Hearings Body. Any person who is adversely affected or aggrieved or who is entitled to written notice may appeal the decision by filing a written appeal in the manner and within the time period as provided below pursuant to Coos County Zoning and Land Development Ordinance (CCZLDO) Article 5.8. If you are mailing any documents to the Coos County Planning Department the address is 250 N. Baxter, Coquille OR 97423. Mailing of this notice to you precludes an appeal directly to the Land Use Board of Appeals.

Mailed notices to owners of real property required by ORS 215 shall be deemed given to those owners named in an affidavit of mailing executed by the person designated by the governing body of a county to mail the notices. The failure of the governing body of a county to cause a notice to be mailed to an owner of a lot or parcel of property created or that has changed ownership since the last complete tax assessment roll was prepared shall not invalidate an ordinance.

The application, staff report and any conditions can be found at the following link:<http://www.co.coos.or.us/Departments/Planning/PlanningDepartment-Applications2019.aspx>. The application and all documents and evidence contained in the record, including the staff report and the applicable criteria, are available for inspection, at no cost, in the Planning Department located at 225 North Adams Street, Coquille, Oregon. Copies may be purchased at a cost of 50 cents per page. The decision is based on the application submittal and information on record. The name of the Coos County Planning Department representative to contact is Jill Rolfe, Planning Director and the telephone number where more information can be obtained is (541) 396-7770.

Failure of an issue to be raised in a hearing, in person or in writing, or failure to provide statements of evidence sufficient to afford the Approval Authority an opportunity to respond to the issue precludes raising the issue in an appeal to the Land Use Board of Appeals.

CONDITIONS OF APPROVAL

The applicant shall comply with the following conditions of approval with the understanding that all costs associated with complying with the conditions are the responsibility of the applicants and that the applicants are not acting as an agent of the county. If the applicant fails to comply or maintain compliance with the conditions of approval the permit may be revoked as allowed by the Coos County Zoning and Land Development Ordinance. Please read the following conditions of approval and if you have any questions contact planning staff.

1. All applicable mapping and filing requirements shall be complied with as listed below. If a map is required it shall be submitted to the Surveyor’s office with the deeds. The deeds shall not be filed and that map has the appropriate signatures. Copies of all recorded deeds shall be submitted as the final step in the process.
2. Shall comply with any requirements from Coos County Surveyor or Assessor’s Office.
3. The applicant shall comply with the conditions of approval for variance (V-19-002):
 - a. The property owner is responsible for ensuring compliance, and land use authorization shall remain recorded in the chain of title. The statement needs to include language that the purchaser of the property has been provided a copy of the land use approval containing all conditions or restrictions understands the obligation and agrees to fulfill the conditions, unless a modification is approved as provided in this ordinance. The property owner is responsible for ensuring compliance, and land use authorization.
 - b. The property shall not be divided along the zone boundary.

Mapping and Filing Requirements

1. Map and Monuments Required:
 - a. For any resulting lot or parcel ten acres or less, a survey map that complies with ORS 209.250 shall be prepared;
 - b. The survey map shall show all structures within ten (10) feet of the adjusted line;
 - c. The survey shall establish monuments to mark the adjusted line.
2. Approval and Filing Requirements:
 - a. Upon determination that the requirements of this section have been met, the Director shall advise the applicant in writing that the line adjustment is tentatively approved;
 - b. Within one year from the date of tentative approval, the applicant shall prepare and submit to the Director any map required by Section 6.2.800(4) and Section 6.2.800(5) if a survey is required. If no map is required, the applicant shall submit proof that the requirements of the tentative approval have been met. The Director shall indicate final approval by endorsement upon the map, if any, or if no map is required the Director shall advise the applicant in writing that final approval has been granted;
 - c. Once endorsed by the Director, the map shall then be submitted to the County Surveyor. When the map is filed, the County Surveyor shall indicate the filing information on the map;
 - d. A line adjustment shall be effective when the map is filed by the County Surveyor and an instrument (e.g. deed or covenant) is recorded with the County Clerk. If no map is required, then the line adjustment shall be effective when final approval is granted by the Director and an instrument is recorded with the County Clerk;
 - e. If a survey is required, the Deed shall be recorded and the Survey Map shall be filed simultaneously. The survey map, with the signature of the Coos County Planning Director shall be submitted to the County Surveyor along with the required filing fee. The survey map will be given a filing number which will be added to the Property Line Adjustment deed. The deed will then be recorded whereupon the recording number for said deed will be added to the face of the survey map. Said map will then be filed with the County Surveyor, completing the process.
 - f. The property line adjustment deed must be submitted on the exact format found in § 6.3.175.f.

**EXHIBIT “D”
STAFF REPORT
FINDINGS OF FACT AND CONCLUSIONS**

I. PROPOSAL AND BACKGROUND/PROPERTY HISTORY INFORMATION:

- A. PROPOSAL:** According to the application the request is for of a Property Line Adjustment. The purpose of the adjustment is to ensure a better building area. The adjusted area with take .38 of an acre from tax lot 3007 and give it to tax lot 3704.
- B. BACKGROUND INFORMATION:** The properties was created through approved land divisions P-15-04 and P-17-002 and both properties are currently undeveloped. There is no other background available as they are considered newly created parcels.

II. BASIC FINDINGS:

- A. LOCATION:** These units of land are located northeast of the City of North Bend accessed off Fiddleback Road via North Bay Road.
- B. ZONING:** These parcels are zoned Rural Residential – 2 (RR-2).

ARTICLE 4.2 – ZONING PURPOSE AND INTENT

SECTION 4.2.100-RESIDENTIAL

The purpose of the “RR-2” and “RR-5” districts are to provide for small to medium acreage dwelling sites outside of Urban Growth Boundaries, where a moderate intensity of land development is appropriate, but where urban services and facilities may not be available or necessary.

The “RR-2” district provides for continued existence of rural family life and to provide a transition of densities between urban development and exclusive agricultural and forestry uses.

C. SPECIAL DEVELOPMENT CONSIDERATIONS AND OVERLAYS:

SECTION 4.11.125 Special Development Considerations: The considerations are map overlays that show areas of concern such as hazards or protected sites. Each development consideration may further restrict a use. Development considerations play a very important role in determining where development should be allowed in the Balance of County zoning. The adopted plan maps and overlay maps have to be examined in order to determine how the inventory applies to the specific site

SECTION 4.11.200 Purpose: Overlay zones may be super-imposed over the primary zoning district and will either add further requirements or replace certain requirements of the underlying zoning district. The requirements of an overlay zone are fully described in the text of the overlay zone designations. An overlay zone is applicable to all Balance of County Zoning Districts and any zoning districts located within the Coos Bay Estuary Management Plans when the Estuary Policies directly reference this section.

No development is part of this proposal; therefore, there are no Special Development Considerations or Overlays are required to be addressed.

- D. SITE DESCRIPTION AND SURROUNDING USES:** The majority of these properties are treed with land clearings. The subject properties are zoned Rural Residential-2 (RR-2). The majority of the surrounding properties are zoned Rural Residential – 2 (RR-2) and consist of residential development and most have some tree coverage. The properties to the immediate

west have no development. The properties located on the southeast portion of this property are zoned Rural Center (RC) and contain residential development. There is some down slope on tax lot 3704 and the boundary line adjustment looks to accommodate that topographical feature.

E. COMMENTS:

- a. **PUBLIC AGENCY:** The only comment received was from the Coos County Surveyor's office. Please see his comment at Exhibit E.
- b. **PUBLIC COMMENTS:** This application request did not require any request for comments prior to the release of the decision.
- c. **LOCAL TRIBE COMMENTS:** This application request did not require any request for comments prior to the release of the decision.

F. LAWFULLY CREATED UNIT OF LAND: Both units of land were lawfully created pursuant to 6.1.125.1.c, through a land division.

III. STAFF FINDINGS AND CONCLUSIONS:

a. **SUMMARY OF PROPOSAL AND APPLICABLE REVIEW CRITERIA:**

The proposal is for Planning Director Approval of a single Property Line Adjustment. The proposal is subject to Coos County Zoning and Land Development (CCZLDO) Article 6.3 Property Line Adjustments.

b. **Key definitions:**

ACTIVITY: Any action taken either in conjunction with a use or to make a use possible. Activities do not in and of themselves result in a specific use. Several activities such as dredging, piling and fill may be undertaken for a single use such as a port facility. Most activities may take place in conjunction with a variety of uses.

DEVELOP: To bring about growth or availability; to construct or alter a structure, to conduct a mining operation, to make a physical change in the use or appearance of land, to divide land into parcels, or to create or terminate rights to access.

DEVELOPMENT: The act, process or result of developing.

USE: The end to which a land or water area is ultimately employed. A use often involves the placement of structures or facilities for industry, commerce, habitation, or recreation.

ZONING DISTRICT: A zoning designation in this Ordinance text and delineated on the zoning maps, in which requirements for the use of land or buildings and development standards are prescribed.

Dwelling: Any building that contains one or more dwelling units used, intended, or designed to be built, used, rented, leased, let or hired out to be occupied, or that are occupied for living purposes.

c. **Criteria and standards for Property Line Adjustments**

- **SECTION 6.3.125 PROCEDURE:**
 - 1. An application for a line adjustment or elimination shall be filed by the owners of all lots or parcels affected. The application shall be accompanied by an appropriate fee and contain the following information:
 - a. Reason for the line adjustment;

- b. Vicinity map locating the proposed line adjustment or elimination in relation to adjacent subdivisions, partitions, other units of land and roadways;
- c. A plot plan showing the existing boundary lines of the lots or parcels affected by the line adjustment and the approximate location for the proposed adjustment line. The plot plan shall also show the approximate location of all structures within ten (10) feet of the proposed adjusted line;
- d. A current property report (less than 6 months old) indicating any taxes, assessment or other liens against the property, easements, restrictive covenants and rights-of-way, and ownerships of the property of the proposed development. A title report is acceptable.
- e. A notice of application and decision will be provided to any and all lien holders of record for the property that will be affected by the proposed adjustment. Applicants should consult with any and all such lien holders prior to submittal of an application.

FINDING: The application stated that the reason for the adjustment is ensure buildable area on the units of land. The applicant did not provide a plot plan because there was no development but did provide a survey map. The property report information provides the lien holders for the property, easements and right of ways. The properties do not have back taxes. The lienholder will be notified of the property boundary adjustment. Therefore, all criteria have been satisfied.

- 2. A line adjustment is permitted only where an additional unit of land is not created and where the lot or parcel reduced in size by the adjustment complies with the requirements of the applicable zone except that a line adjustment for the purpose of exchange or transfer of land between resource land owners shall be allowed so long as:
 - a. No parcel is reduced in size contrary to a condition under which it was formed;
 - b. The resulting parcel sizes do not change the existing land use pattern (e.g. two conforming parcels must remain conforming); and
 - c. Two non-conforming parcels may remain non-conforming; and, two parcels, one conforming and one non-conforming, may remain as such regardless of which parcel is non-conforming after the exchange or transfer).

FINDING: The parcels were created through a partition and did not contain restrictions other than meeting the minimum parcel size of two (2) acres. The adjustment will allow both parcels to remain conforming.

Therefore, this request complies with the criteria under this section.

- 3. An encroachment of existing or planned structures will not be created within required setbacks as a result of the line adjustment.

FINDING: There is no development on the parcels and any future structures will be required to comply with the setback requirements in the applicable zoning district.

- 4. A line adjustment for a lot or parcel that contains a dwelling, not on a public sanitation system, and is less than an acre before the adjustment and further reduced as a result of the adjustment shall obtain documentation from Department of Environmental Quality (DEQ) that the sanitation system will still meet their requirements.

FINDING: Neither unit of land will be reduced less than one (1) acre. Therefore, this condition does not apply.

5. *In resource lands, a unit of land containing a dwelling, or approved for construction of a dwelling, cannot be adjusted with a vacant resource unit of land for the purpose of qualifying the vacant unit for a 160-acre dwelling.*
 - a. *A resource unit of land less than 160 acres and containing a (preexisting) dwelling, or approved for construction of a dwelling, cannot be adjusted with a vacant resource unit of land for the purpose of qualifying the vacant unit for a 160-acre dwelling;*
 - b. *A resource unit of land 160 acres or greater and containing a (preexisting) dwelling, or approved for construction of a dwelling, cannot be adjusted below 160 acres with a vacant resource unit of land for the purpose of qualifying the vacant unit for a 160-acre dwelling;*
 - c. *A resource unit of land 160 acres or greater and containing a dwelling approved as a 160-acre dwelling, or approved for construction of a 160-acre dwelling, cannot be reduced below 160 acres for the purpose of qualifying the vacant unit for a 160-acre dwelling.*

FINDING: **This adjustment is not to qualify either unit of land for a dwelling. Therefore, this criterion does not apply.**

6. *Same Designation: A line adjustment shall only be permitted where the sale or transfer of ownership is made between abutting owners of like designated lands, residential lands, commercial lands, industrial lands, resource lands, and estuary zoned lands unless an existing structure encroaches over an existing property boundary or the boundary line adjustment is required to comply with requirements of the State Department of Environmental Quality for a subsurface sewage system.*

FINDING: **The parcels are both zoned RR-2. Therefore, this criterion has been met.**

- ***SECTION 6.3.150 EASEMENTS AND ACCESS:***

A line adjustment shall have no effect on existing easements or access. Access shall not be eliminated through a property line adjustment process. If an access is potentially affected, then an easement may be created for access to comply with this criterion.

FINDING: **There will be no effect on existing easements. Therefore, this criterion has been met.**

IV. DECISION:

The proposed Property Line Adjustment meets the requirements of the Coos County Zoning and Land Development Ordinance, with conditions listed in Exhibit “A” of this report.

V. EXPIRATION:

This is a tentative approval that is valid for up to one year. To finalize this decision the applicant shall comply with the approval and filing requirements found in the conditions of approval in Exhibit “A” of this report once the appeal period has expired and an appeal has not be filed.

VI. NOTICE REQUIREMENTS:

A notice of decision will be provided to property owners within 750 feet of the subject properties and the following agencies, special district or parties

A Notice of Decision and Staff Report will be provided to the following:

- Applicants/Owners
- Department of Land Conservation and Development
- Planning Commission
- Board of Commissioners

Introduction

The purpose of a property line adjustment application is to review changes in property lines when no new lots are being created. Property lines may be changed to account for the location of fences, driveways, gardens and buildings. For example, a property owner may discover that a fence is located on a neighbor's property. As a solution, the affected property owners may agree to relocate their property lines. A property line adjustment review is needed to make sure the change is consistent with zoning standards.

In addition to filling out the application form, the applicant needs to draw a plot plan. The plot plan will show the property lines and dimensions, and the location of all buildings, wells, septic tanks and drain field for the parcels which are being adjusted.

The applicants need to submit the application to the Planning Department. Once the application and plot plan are accepted, staff will review the proposal.

A single adjustment of one line between two abutting properties will be approved as an administrative act.

Multiple adjustments between more than two abutting properties will be processed as a land use decision and may be approved as a single application on condition that each adjustment is completed prior to the next, in accordance with ORS Chapter 92.

Approval will become final after the applicant(s) complies with the approval criteria including completion of surveys when required and recording of the property line adjustment deed(s). These must be completed within one year of the approval.

This information is provided as a courtesy and is not intended to replace the provisions of Article 6.3.

E. Purpose of the Property Line Adjustment

The purpose of the adjustment is to create a more desirable building site.

F. Criteria from Article 6.3

ARTICLE 6.3 PROPERTY LINE ADJUSTMENTS

SECTION 6.3.100 PROPERTY LINE ADJUSTMENTS:

As set forth in ORS 92.190(3), the common boundary line between lots or parcels may be adjusted in accordance with this section without the replatting procedures in ORS 92.180 and 92.185 or the vacation procedures in ORS Ch. 368. Once a lot or parcel line has been adjusted, the adjusted line shall be the boundary or property line, not the original line. The Director has authority to approve a line adjustment as an Administrative Action.

SECTION 6.3.125 PROCEDURE:

1. An application for a line adjustment or elimination shall be filed by the owners of all lots or parcels affected. The application shall be accompanied by an appropriate fee and contain the following information:
 - a. Reason for the line adjustment;
 - b. Vicinity map locating the proposed line adjustment or elimination in relation to adjacent subdivisions, partitions, other units of land and roadways;
 - c. A plot plan showing the existing boundary lines of the lots or parcels affected by the line adjustment and the approximate location for the proposed adjustment line. The plot plan shall also show the approximate location of all structures within ten (10) feet of the proposed adjusted line;
 - d. A current property report (less than 6 months old) indicating any taxes, assessment

or other liens against the property, easements, restrictive covenants and rights-of-way, and ownerships of the property of the proposed development. A title report is acceptable.

- e. A notice of application and decision will be provided to any and all lien holders of record for the property that will be affected by the proposed adjustment. Applicants should consult with any and all such lien holders prior to submittal of an application.
2. A line adjustment is permitted only where an additional unit of land is not created and where the lot or parcel reduced in size by the adjustment complies with the requirements of the applicable zone except that a line adjustment for the purpose of exchange or transfer of land between resource land owners shall be allowed so long as:
 - a. No parcel is reduced in size contrary to a condition under which it was formed;
 - b. The resulting parcel sizes do not change the existing land use pattern (e.g. two conforming parcels must remain conforming; and
 - c. Two non-conforming parcels may remain non-conforming; and, two parcels, one conforming and one non-conforming, may remain as such regardless of which parcel is non-conforming after the exchange or transfer).
 3. An encroachment of existing or planned structures will not be created within required setbacks as a result of the line adjustment.
 4. A line adjustment for a lot or parcel that contains a dwelling, not on a public sanitation system, and is less than an acre before the adjustment and further reduced as a result of the adjustment shall obtain documentation from Department of Environmental Quality (DEQ) that the sanitation system will still meet their requirements.
 5. In resource lands, a unit of land containing a dwelling, or approved for construction of a dwelling, cannot be adjusted with a vacant resource unit of land for the purpose of qualifying the vacant unit for a 160-acre dwelling.
 - a. A resource unit of land less than 160 acres and containing a (preexisting) dwelling, or approved for construction of a dwelling, cannot be adjusted with a vacant resource unit of land for the purpose of qualifying the vacant unit for a 160-acre dwelling;
 - b. A resource unit of land 160 acres or greater and containing a (preexisting) dwelling, or approved for construction of a dwelling, cannot be adjusted below 160 acres with a vacant resource unit of land for the purpose of qualifying the vacant unit for a 160-acre dwelling;
 - c. A resource unit of land 160 acres or greater and containing a dwelling approved as a 160-acre dwelling, or approved for construction of a 160-acre dwelling, cannot be reduced below 160 acres for the purpose of qualifying the vacant unit for a 160-acre dwelling.
 6. Same Designation: A line adjustment shall only be permitted where the sale or transfer of ownership is made between abutting owners of like designated lands, residential lands, commercial lands, industrial lands, resource lands, and estuary zoned lands unless an existing structure encroaches over an existing property boundary or the boundary line adjustment is required to comply with requirements of the State Department of Environmental Quality for a subsurface sewage system.

7. Property line adjustments are subject to a twelve (12) day appeal period. If appealed, this will be treated as a Planning Director's decision and the procedures in Article 5.8 will be followed. A notice of the decision will be mailed to the applicant and to all neighborhood or community organizations recognized by the County and whose boundaries include the site. Notice of the decision will also be mailed to the owners of record of property on the most recent property tax assessment roll where such property is located:
 - a. Within 100 feet of the exterior boundaries of the contiguous property ownership which is the subject of the notice if the subject property is wholly or in part within an urban growth boundary;
 - b. Within 250 feet of the exterior boundaries of the contiguous property ownership which is the subject of the notice if the subject property is outside an urban growth boundary and not within a farm or forest zone;
 - c. Within 750 feet of the exterior boundaries of the contiguous property ownership which is the subject of the notice if the subject property is within a farm or forest zone.

SECTION 6.3.150 EASEMENTS AND ACCESS:

A line adjustment shall have no affect on existing easements or access. Access shall not be eliminated through a property line adjustment process. If an access is potentially affected then an easement may be created for access to comply with this criterion.

SECTION 6.3.175 MAPPING AND FILING REQUIREMENTS:

1. Map and Monuments Required:

- a. For any resulting lot or parcel ten acres or less, a survey map that complies with ORS 209.250 shall be prepared;
- b. The survey map shall show all structures within ten (10) feet of the adjusted line;
- c. The survey shall establish monuments to mark the adjusted line.

2. Approval and Filing Requirements:

- a. Upon determination that the requirements of this section have been met, the Director shall advise the applicant in writing that the line adjustment is tentatively approved;
- b. Within one year from the date of tentative approval, the applicant shall prepare and submit to the Director any map required by Section 6.2.800(4) and Section 6.2.800(5) if a survey is required. If no map is required, the applicant shall submit proof that the requirements of the tentative approval have been met. The Director shall indicate final approval by endorsement upon the map, if any, or if no map is required the Director shall advise the applicant in writing that final approval has been granted;
- c. Once endorsed by the Director, the map shall then be submitted to the County Surveyor. When the map is filed, the County Surveyor shall indicate the filing information on the map;
- d. A line adjustment shall be effective when the map is filed by the County Surveyor and an instrument (e.g. deed or covenant) is recorded with the County Clerk. If no map is required, then the line adjustment shall be effective when final approval is granted by the Director and an instrument is recorded with the County Clerk;

- e. If a survey is required, the Deed shall be recorded and the Survey Map shall be filed simultaneously. The survey map, with the signature of the Coos County Planning Director shall be submitted to the County Surveyor along with the required filing fee. The survey map will be given a filing number which will be added to the Property Line Adjustment deed. The deed will then be recorded whereupon the recording number for said deed will be added to the face of the survey map. Said map will then be filed with the County Surveyor, completing the process.
- f. The property line adjustment deed must be submitted on the exact format found in Figure 1 below.

G. Authorization: All areas must be initialed by all applicant(s) prior to the Planning Department accepting any application.
