

The Upper Coos River Water Association

May 2, 2019

Hello,

My name is Don Boyer,

I have been a resident of this area, well, my whole life. I grew up here and my family lived here before there was a ~~cattle ranch~~ or a rock quarry. I have been able to see the changes this rock quarry has made to this neighborhood and none of them are for the better.

Thank you all

Don Boyer

I'VE SEEN A CONSISTANT DECLINE IN THE OVERALL AMOUNT OF WATER IN THE ~~FALL~~ ^{LATE SUMMER} AND FALL TIME OF THE YEAR SINCE THE ROCK QUARRY BEGAN. THRU ALL THE YEARS OF DRILLING AND BLASTING I BELIEVE ITS CHANGED THE WATER TABLE TO ADYERSELY EFFECT THE WHOLE COMMUNITY. JUST IN THE LAST FEW YEARS WE ALL HAVE HAD TO INSTAN WATER STORAGE TANKS JUST TO HOLD US OVER TILL THE RAINS START. I THINK IT WOULD BE A GOOD IDEA FOR A GEOLOGICAL STUDY
