VI. PROPOSAL

The proposal is a request for Planning Director Approval of a Property Line Adjustment between two Lawfully Created Parcels so that a Land Division Application can be submitted at a later time.

II. BACKGROUND INFORMATION

Tax lot 3700

- October 8, 1993 a Partition (P-93-25) was approved.
- July 21, 2010 a Property Line Adjustment (PLA-10-28) was approved with tax lot 805 in section 02BA.
- December 11, 2014 a Property Line Adjustment (PLA-14-37) was approved with parcel 100 in section 02BB.
- On July 6, 2015 a Partition was approved (P-15-04)
- On July 27, 2016 a Partition was approved (P-16-001), which created tax lot 3706.

III. PROPERTY DESCRIPTION AND PROPOSAL

LOCATION: These parcels are located northeast of the City of North Bend. Both tax lots have access through Fiddleback Road via North Bay Road.

LAWFULLY CREATED:

Both properties are lawful units of land pursuant to CCZLDO 6.1.125.1.c through a Partition (P-16-001) that was approved in accordance with applicable zoning and land use ordinances at the time they were created.

IV. APPLICABLE CRITERIA & FINDINGS OF FACT

• **SECTION 6.3.125 PROCEDURE:**

1. *An application for a line adjustment or elimination shall be filed by the owners of all lots or parcels affected. The application shall be accompanied by an appropriate fee and contain the following information:*
 - a. *Reason for the line adjustment;*
 - b. *Vicinity map locating the proposed line adjustment or elimination in relation to adjacent subdivisions, partitions, other units of land and roadways;*
 - c. *A plot plan showing the existing boundary lines of the lots or parcels affected by the line adjustment and the approximate location for the proposed adjustment line. The plot plan shall also show the approximate location of all structures within ten (10) feet of the proposed adjusted line;*
 - d. *A current property report (less than 6 months old) indicating any taxes, assessment or other liens against the property, easements, restrictive covenants and rights-of-way, and ownerships of the property of the proposed development. A title report is acceptable.*
 - e. *A notice of application and decision will be provided to any and all lien holders of record for the property that will be affected by the proposed adjustment. Applicants should consult with any and all such lien holders prior to submittal of an application.*

FINDING: The applicant stated that the reason for the adjustment is to give the units of land a more desirable boundary line for future management of the properties. A complete application with a plot plan showing the existing and proposed location of the new line as well as a current property report was supplied. The properties have a private lien and a copy of this report will be mailed to them. Therefore, these criteria have been addressed.

2. *A line adjustment is permitted only where an additional unit of land is not created and where the lot or parcel reduced in size by the adjustment complies with the requirements of the applicable zone except that a line adjustment for the purpose of exchange or transfer of land between resource land owners shall be allowed so long as:*
 - a. *No parcel is reduced in size contrary to a condition under which it was formed;*
 - b. *The resulting parcel sizes do not change the existing land use pattern (e.g. two conforming parcels must remain conforming); and*
 - c. *Two non-conforming parcels may remain non-conforming; and, two parcels, one conforming and one non-conforming, may remain as such regardless of which parcel is non-conforming after the exchange or transfer).*

FINDING: The minimum lot size for the zoning district of the two parcels in question is two acres. Both tax lots are legal conforming tax lots and will remain so after the adjustment. Tax lot 3700 will contain 8.50 acres and lot 3706 will have 3.02 acres after the adjustment.

Therefore, this request complies with the criteria under this section.

3. *An encroachment of existing or planned structures will not be created within required setbacks as a result of the line adjustment.*

FINDING: No encroachment of existing structures will be created by adjusting the property boundary line. Therefore, this criterion has been met. Any future structures will be required to comply with the setback requirements in the applicable zoning district.

4. *A line adjustment for a lot or parcel that contains a dwelling, not on a public sanitation system, and is less than an acre before the adjustment and further reduced as a result of the adjustment shall obtain documentation from Department of Environmental Quality (DEQ) that the sanitation system will still meet their requirements.*

FINDING: Neither unit of land contains a dwelling, and both will be over an acre. Therefore, this condition does not apply.

5. *In resource lands, a unit of land containing a dwelling, or approved for construction of a dwelling, cannot be adjusted with a vacant resource unit of land for the purpose of qualifying the vacant unit for a 160-acre dwelling.*
 - a. *A resource unit of land less than 160 acres and containing a (preexisting) dwelling, or approved for construction of a dwelling, cannot be adjusted with a vacant resource unit of land for the purpose of qualifying the vacant unit for a 160-acre dwelling;*
 - b. *A resource unit of land 160 acres or greater and containing a (preexisting) dwelling, or approved for construction of a dwelling, cannot be adjusted below 160 acres with a vacant resource unit of land for the purpose of qualifying the vacant unit for a 160-acre dwelling;*
 - c. *A resource unit of land 160 acres or greater and containing a dwelling approved as a 160-acre dwelling, or approved for construction of a 160-acre dwelling, cannot be reduced below 160 acres for the purpose of qualifying the vacant unit for a 160-acre dwelling.*

FINDING: The purpose of this adjustment is not to qualify for a dwelling. Therefore, this criterion does not apply.

6. *Same Designation: A line adjustment shall only be permitted where the sale or transfer of ownership is made between abutting owners of like designated lands, residential lands, commercial lands, industrial lands, resource lands, and estuary zoned lands unless an existing structure encroaches over an existing property boundary or the boundary line adjustment is required to comply with requirements of the State Department of Environmental Quality for a subsurface sewage system.*

FINDING: The zoning districts will not change. Therefore, this criterion has been met.

- **SECTION 6.3.150 EASEMENTS AND ACCESS:**

A line adjustment shall have no affect on existing easements or access. Access shall not be eliminated through a property line adjustment process. If an access is potentially affected then an easement may be created for access to comply with this criterion.

FINDING: There will be no affect on existing easements. Therefore, this criterion has been met.

VI. DECISION:

The proposed Property Line Adjustment meets the requirements of the Coos County Zoning and Land Development Ordinance, with conditions as listed above. This is a tentative approval that is valid for up

to one year. To finalize this decision the applicant shall comply with the approval and filing Requirements found in the conditions of approval in Exhibit "A" of this report.
