Dear Ms. Orr_

As a citizen of Oregon, who chooses not to visit Oregon Coastal Waters, where sewer effluent is deposited in the estuary...I am appalled at the Dog & Pony Show that is being offered to the public as a Legal Process.

I believe Mr. Stamps position & affiliation with the decision making process in Oregon, should be terminated, and decisions concerning the Best Interest of the State, be decided by individuals familiar with processes and eco-systems that are sustainable.

It appears that Mr. Stamp has continued to extend discussion on the Jordan Cove controversy, so that the narrative is controlled.

Am looking forward to the day that 500 boats show-up at Coos Bay, and don't fish... They will just exercise their "Supreme Right of Navigation". I hope these boaters will spend days, Navigating the channel, documenting the pollution and practices, of Coos County.

Sincerely,

Cal Hartley
