Wetland/Waterway/Other Water Features

There are/may be wetlands, waterways or other water features on the property that are subject to the State Removal-Fill Law based upon a review of wetland maps, the county soil survey and other available information.

The National Wetlands Inventory shows wetland, waterway or other water features on the property

The property includes or is adjacent to designated Essential Salmonid Habitat.

Applicable Oregon Removal-Fill Permit Requirement(s)

A state permit is required for 50 cubic yards or more of fill removal or other ground alteration in wetlands, below ordinary high water of waterways, within other waters of the state, or below highest measured tide.

A state permit is required for any amount of fill, removal, and/or other ground alteration in Essential Salmonid Habitat and within adjacent off-channel rearing or high-flow refugia habitat with a permanent or seasonal surface water connection to the stream.

Closing Information

Additional Comments

It was not clear what the action is for this land use notice. It doesn't seem like there is any removal/fill proposed; "Discreet Parcel" is not regulated by DSL. The area specified comprises 2 townships and is much too large to provide meaningful feedback for any current or future proposed activities that may impact waters of the state. In general, Township 30S 10W and the southeast portion of Township 30S 11W contains many streams that are likely state jurisdictional, and several of them are designated Essential Salmonid Habitat. It appears that there could be some adjacent wetland in some stream valleys. Most of the designated area is mountainous, and, from this very coarse assessment, the areas outside the stream valleys do not contain wetlands. Therefore, it appears that there are sufficient options for necessary removal/fill activities on the designated tax lots that could avoid wetlands and other waters of the state.

This is a preliminary jurisdictional determination and is advisory only.

This report is for the State Removal-Fill law only. City or County permits may be required for the proposed activity.

Contact Information

- For information on permitting, use of a state-owned water, wetland determination or delineation report requirements please contact the respective DSL Aquatic Resource, Proprietary or Jurisdiction Coordinator for the site county. The current list is found at: <http://www.oregon.gov/dsl/ww/pages/wwstaff.aspx>
- The current Removal-Fill permit and/or Wetland Delineation report fee schedule is found at: <https://www.oregon.gov/dsl/WW/Documents/Removal-FillFees.pdf>
